# Ocean TV – Australia's Best Value Marine Satellite TV Antennas

## Ocean O32 Smallest Model

100% compatible LNB's for the Australian and New Zealand Markets.

Simple to Install, Simple to Operate, it can't be any easier to have Satellite TV on Board.

Wherever you are, the O-Series can lock on to a satellite's exact position, in the fastest time, so you can enjoy the best broadcast possible. The O-series will bring you exciting Digital TV (HD) entertainment without interruption even while cruising ocean waters.

While at the Marina, all Ocean Series feature an Auto Sleep Mode, saving power and giving silent operation. Once on the move the Ocean Series Antenna will wake up and begin tracking the correct satellites automatically.

In the Car Industry there was Mercedes-Benz and BMW, Lexus came on the market and revolutionised the Car Market. Ocean TV is the 'Lexus' of the Marine Satellite TV Market. Quality, Technology, Performance, at a lower price".....*Mark Rothwell senior partner of MR Marine Ocean TV.*

Designed and manufactured exclusively for MR Marine Australia, by one of the worlds leading Satellite Tracking Companies. The Ocean Series is unmatched in performance, technology and price. Featuring the very latest in design, small size, and

## Ocean O32 - Suitable for Boat 6m and up

The Ocean32 or O32 as it is known, is the smallest and lightest Gyro Stabilized Satellite TV Antenna on the Australian Market. Up to 12% smaller in Diameter and 25% smaller in Height than a well known European Brand's smallest Dome for the Australian Market.

The O32 is ideal for the smaller sport cruisers or yachts that do not have the room or want a small Satellite TV Dome that will not over power the looks of the boat.

Easily fitted to the Targa Bar, or Mast, a single cable from Dome to Indoor Control Unit (ICU), makes installation a breeze. All operate on 12-24v DC ships power.

## Ocean O37M - Our Most Popular Antenna

The Ocean O37M, is the Best Value Gyro Stabilized Satellite TV Antenna for the lower Queensland, New South Wales, Victorian Coast and South Australian Gulf waters.

## Ocean O37M HD Compatible

Multi output is standard, for vessels wanting multiple cabin control of Satellite TV, or wish to use a HD Set Top Box supplied by the Satellite TV provider.

Empty Domes are also available in all sizes to balance the look if required. Often a GPS, TV antenna, or other antennas are fitted in the spare dome to give a clean look.

Multi output is standard, for vessels wanting multiple cabin control of Satellite TV, or wish to use a HD Set Top Box supplied by the Satellite TV provider.

## Ocean O45M & O60M - Fully Automatic

The Ocean O45M and Ocean O60M, are the Best Value Gyro Stabilized Satellite TV Antenna, with GPS and AutoSkew on the Australian Market. Some competing far more expensive brands do not even offer GPS and AutoSkew as an option.

Multi-Output and HD is also standard, a feature costing hundreds of dollars more on competing brands if available.
